

**5** Floor Gres Walks/1.0 inspired by quartzite

Walks/1.0 from Floor Gres reinterprets the look of quartzite into a porcelain stoneware collection that combines a rough texture with rich colors and graphics. Available in White, Black, Beige, Gray, and in several formats including mesh-mounted mosaics. **For details, circle 359 on the Reader Inquiry Card.**

**6** Custom Building Products launches CEG-Lite Commercial

Custom Building Products has unveiled its CEG-Lite Commercial Epoxy Grout, a lightweight 100% solids epoxy grout formulated with CustomLite Technology and recycled content. The product offers high stain and chemical resistance and contributes to LEED certification based on recycled content.

**7** Laticrete adds new finish to SpectraLOCK Pro Grout

Laticrete has introduced an improved version of its flagship SpectraLOCK Pro Grout. The revamped product includes a new ultra-bright white color finish, features enhanced non-sag properties and workability for epoxy-based tile and stone installation projects in LEED or LEED for Homes building. **For details, circle 340 on the Reader Inquiry Card.**

**8** Tramex Launch for moisture inspection

Tramex Launch is the new MRH moisture inspection kit, which incorporates Tramex's non-invasive impedance test with a heavy-duty pin probe and a relative humidity probe. When testing different building materials, users select the appropriate scale and push the meter against the material to read the results. The Tramex MRH kit offers an optional slide action hammer electrode for measuring up to a depth of 1.5". **For details, circle 342 on the Reader Inquiry Card.**

**9** MAPEI's Ultraflex LFT for interiors, exteriors

MAPEI has introduced Ultraflex LFT Rapid mortar to its line of fast-setting tile and stone installation systems. Its non-sag, medium-bed and thin-set mortar characteristics are ideal for installing large-format tile and stone on interior and exterior floors, walls and countertops. **Booth #3144. For details, circle 355 on the Reader Inquiry Card.**
